

Giving to support our
work with young lives

There are over eight thousand children and young people in Hitchin, many of whom have little or no contact with the church and dismiss the Christian faith as irrelevant.

PHASE was born out of a passion to reconnect the church with young lives and to make a positive difference to their lives. Our primary mandate is to work within the town's secondary schools and in partnership with the churches, demonstrating the reality of our faith through professional and credible input.

We are also committed to work collaboratively with churches across the town to provide a programme of activities for leaders, young people and children which will envision and equip people in their faith.

Over the past years, thousands have been impacted by our work which is held in high esteem both by schools and the town as a whole.

As a voluntary organisation, we are funded by donations and depend on your financial support for this work to continue and to develop a future that sees Hitchin churches at the heart of the children and young people's lives and experiences.
