Providing Help And Support in Education

# Come and join us for a fantastic evening

PHASE works across the schools in Hitchin and in partnership with the local churches to provide the best we can for young people. Our role is to journey with, share with and be there for them.

Please come and join us to celebrate the work of PHASE in the local schools. There will be an opportunity to see some of what we do, such as delivering lessons, assemblies, R.E. Days and much, much more.

Both the team and young people will be on hand to share what has been happening over the past year. As part of the evening there will be a short presentation, during which we will be presenting awards to our young leaders and an opportunity to hear about the future.
